

**OnPoint Release 9.2**

**Release Notes - Web Version**

Enhancement = improvement to an existing system feature

Course Manager (OPCM)							
Item #	Configuration Area	Functional Area	Testable	Issue Type	Summary	Description	Release Bundle
CORE-11202, CORE-11203, CORE-11423, CORE-11425	-	OPCM > Home	No	Enhancement	New OPRA-only Metabase configurations	New OPRA-only configs have been created for whether a slice utilizes Metabase, and for entering which users should be provided the "Login to Metabase" option on the OPCM Home page.	9.2
EPICS-290	-	OPCM > Various > Triggers > Reminders	Yes	Enhancement	New Reminders functionality added for periodic messaging to users	A new feature named Reminders is now available to use with assignments. Similar to how triggers can be set to fire based on certain conditions, Reminders can be created to periodically send to users based on Due Date or Assignment Date, allowing repeated messaging to users not previously possible with triggers. Standard Reminders can be created at the slice level for all objects of a type, and individual Reminders can be set per object. All existing trigger setups including Fail to Start/Finish will continue to function as normal; Reminders and triggers can be used alongside one another, with only the Fail to Start and Fail to Finish triggered notifications intended to be replaced by Reminders. Additional documentation will be available.	9.2
CORE-10896	-	OPCM > Users & Groups > Users & Managers > Select a User > Information > Audit Trail	Yes	Enhancement	User-specific Audit Trail view added to user information tab	An "Audit Trail" button has been added to the user information tab in OPCM. Clicking it displays a version of the Audit Trail filtered only for the currently viewed user, allowing quick access to the entries without requiring the admin to navigate to the full Audit Trail.	9.2
CORE-11165, CORE-11166, CORE-11168, CORE-11169	OPCM > Users & Groups > Users & Managers > Select an Instructor > Profile > Edit	OPCM > Events & Activities > Webinars > Select a Teams Webinar > Classes	Yes	Enhancement	"MS Teams Host" field added to instructor profiles to set which instructors can Host Teams webinars	In instructor Profile tabs in OPCM, a new "MS Teams Host" field is now available for designating which instructors can be set as Hosts for Teams webinars. Similar to the existing fields for WebEx, Adobe Connect, and Zoom, this field is utilized at the webinar level to only show designated Hosts in the instructor dropdown for Teams webinars.	9.2
CORE-10674, CORE-10903	OPCM > Assessments > Assessment Sets > Advanced > Enable E-Sig Functionality	Content Presenter > Complete the Assessment Set > E-Signature Verification	Yes	Enhancement	Electronic signature functionality extended to Assessment Sets	E-Signature functionality has been extended to Assessment Sets. The functionality is the same as that for Courses and Nuggets, with users providing a signature and verifying their identity via email or 2-factor authentication. Please see the E-Sig feature guide for more information.	9.2
CORE-11008, CORE-11055, CORE-11176	-	OPCM > Assessments > Interactive Assessments > Triggers	Yes	Enhancement	New trigger actions added to Interactive Assessment Triggers for actor change	New trigger actions have been added to Interactive Assessments for "Interactive Assessment Actor Manager" and "Interactive Assessment Actor User". These triggers will fire when the Interactive Assessment switches to the Manager or the Actor for the next step, allowing specific notifications to go out appropriately to the manager or user.	9.2
CORE-11023, CORE-11024, CORE-11025	OPCM > Events & Activities > Instructor-Led or Webinars > Triggers	Various > Add user to a session waitlist	Yes	Enhancement	New "Added to Waitlist" event trigger now available	A new "Added to Waitlist" trigger is now available for events, providing greater flexibility on specific triggered notifications by allowing waitlist-specific messaging to be created and sent to users and managers. Previously there was no automated messaging to users to confirm they had been successfully added to the waitlist.	9.2
CORE-11264	OPCM > Events & Activities > Instructor-Led or Webinars > Triggers	Various > Approve a user from a waitlist	Yes	Enhancement	New "Added From Waitlist" event trigger now available	A new "Added From Waitlist" trigger is now available for events, providing greater flexibility on specific triggered notifications when users are Approved for an event session due to a spot opening up in their waitlisted session. Previously there was no automated messaging to users to confirm they had been successfully added to the session from the waitlist.	9.2
CORE-11133	-	OPCM > Administration > Thumbnails, Badges & Images > Badge & Trophy Images > Select Badge > Assignments	Yes	Enhancement	View added for where badges are utilized in the OPLS	To help admins better manage badges, a new "Assignments" link has been added to the Edit Badge popup in the badge repository in OPCM, displaying the ID, type, and name of each object to which the badge is assigned.	9.2
CORE-10099, CORE-11000, CORE-11001, CORE-11164, CORE-11201, CORE-11241	-	OPCM > Administration > Audit Trail	Yes	Enhancement	Secondary actions now collapsed under parent actions in the Audit Trail	When an action spawns multiple individual actions (such as assigning a course to a group, which then assigns it to the members of the group), those actions are now displayed in the Audit Trail as a single action, with the option to drill in to see the affected users. This hides the detail of a larger assignment action while still allowing admins to view the entries if needed.	9.2
